EDUCATION

Shri Ramswaroop Memorial University

Bachelor of Technology in Computer Science

Lucknow, UP

Aug. 2018 – May 2022

EXPERIENCE

Software Engineer

June 2022 – Present

mFilterIt

Noida, UP

- Designed interactive dashboards and diverse graphical user interfaces (GUI) for clients, fulfilling primary responsibilities.
- Engineered a custom component to enhance reusability, reducing dependencies on third-party libraries.
- Developed dynamic dashboards with advanced technologies, introducing features like global filters and customizable carts to enhance user experience.
- Orchestrated the creation of a new product, integrating various APIs to retrieve user information based on identifiers like phone numbers, emails, and driver's license numbers.
- Pioneered the implementation of Two-Factor Authentication for the organization, utilizing Email OTP verification.
- Delivered informative sessions on Redux, Sass, and coding standards, contributing to continuous team learning.
- Recognized with the Quarterly Employee Award in the "Behind The Scenes" category for exceptional contributions.

Software Development Intern

Jan. 2022 – May 2022

mFilterIt

Noida, UP

- I have acquired proficiency in various technologies such as D3, React, MySQL, and NextJs.
- Made Dashboard for POC clients
- Implemented Lazy loading , and worked on API integration's and feature implementation.

Research and Development Intern

May 2019 – July 2019

Navodaya

Varanasi, UP

- Focused on learning object oriented programming.
- I worked on developing a project for a three-step authentication process for user login.
- Developed a game in Java to test the generated dungeons

PROJECTS

Custom Table | *HTML, CSS, React, JavaScript*

September 2022 – Present

- I developed a custom table component that possesses functionality similar to a Bootstrap table. This component is entirely customizable and optimized.
- I integrated the table into my organization's product, and it is widely used by other team members as well.
- The table can process the images also through the cell formatted

Portfolio | *React, Webpack, Babel, Git, Firebase*

June 2023 – Present

- I developed and designed an interactive portfolio featuring custom cards and interactive elements to showcase my technical skills.
- I enhanced the visual appeal of the portfolio by incorporating interactive images and third-party libraries, making it captivating to the eyes.
- I created a domain and hosted it on Firebase, utilizing a custom domain bearing my name.

Covid Tracker | *React, chartJs, JavaScript*

June 2023 – Present

- I developed and designed an interactive Covid-19 Tracker App which shows the global stats of the pandemic.
- Used libraries such as ChartJs to make interactive graphs using the mock API.

TECHNICAL SKILLS

Languages: JavaScript, HTML/CSS, Typescript, SQL, Java, Python

Frameworks: React, Next.js, Bootstrap, Tailwind CSS, Material-UI.

Data Visualization: D3.js, Apexcharts

Developer Tools: Git, Firebase, Postman, Visual Studio, MongoDB, PyCharm, IntelliJ

Libraries: Sass, Bootstrap, Redux, jQuery, Lodash
